

设备简介 | INTRODUCTION

全自动尖底纸袋机，主要生产各类食品纸袋及类似M边和尖底的形成非标纸袋。该机采用5伺服电控系统（日本原装进口三菱品牌）具有速度快、性能稳定、调试维护方便等优点。该设备很大的程度上降低了劳动的成本，是广大生产纸袋厂家最为理想高效的设备。

This machine is used to make paper-based flat bottom paper bags in one process from roll paper, perforating, side gluing, tube forming & cutting, wrapping and bottom folding to bag collection in the control of 5 servo motors (Mitsubishi brand, imported from Japan) to ensure the high precision and stability, simple maintenance and high efficiency.

全自动尖底纸袋机(可选加双层纸功能)
Automatic flat bottom paper bag making machine(two-layer function optional)

| 主要技术参数 : Technical Data | |
|------------------------------------|-------------------------|
| 型号/Model | ZNS-350 |
| 纸料最大宽度/Max. roll paper width | 1090 mm |
| 纸料最大直径/Max. diameter of roll paper | φ1500 mm |
| 卷材芯内径/Inside diameter of paper | φ76 mm |
| 纸袋宽度/Finished paper bag width | 80-350 mm |
| 纸袋长度/Cut-off length | 180-720 mm |
| M边宽度/Gusset width | 20-150 mm |
| 折底宽度/Bottom folded width | 20-40 mm |
| 纸张克重/Paper gram | 35-80 g/m ² |
| 最大制袋速度/Max. Production speed | 200-500 bags/min |
| 线速度/Line speed | 120 m/min |
| 机器总功率/Total power | 21 kw |
| 机器重量/Machine Weight | 6500 kg |
| 外形尺寸/Overall dimensions(L*W*H) | 8200/13000*2200*2000 mm |
