

ST060H

机械参数 Machine Parameter

- 外观尺寸 Overall size: 4000×4000×2200(mm)
- 速度范围 Speed: 15-55(pcs/min)
- 机器重量 Weight: 5000(kg)
- 外观颜色 Machine color: 红色+灰色 red and grey
- 额定电压 Voltage: 380/220(V)
- 额定功率 Power: 14(KW)

工艺参数 Technology Parameter

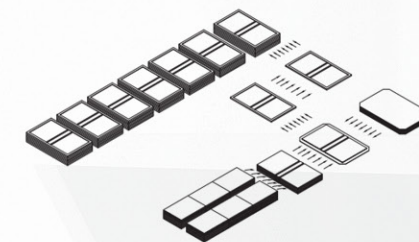

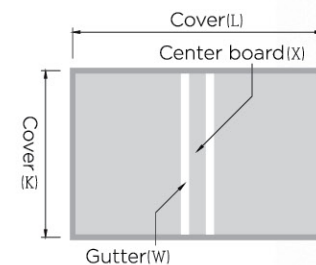

- 最大皮壳尺寸 Max case size: 660×380(mm)
- 最小皮壳尺寸 Min case size: 150×110(mm)
- 中心条尺寸 Center board size(X): 6-100(mm)
- 灰板厚度 Board thickness: 1-5(mm)
- 封面厚度 Cover Thickness: 70-250(g/m²)
- 坑位尺寸 Gutter width(W): 1-17(mm)

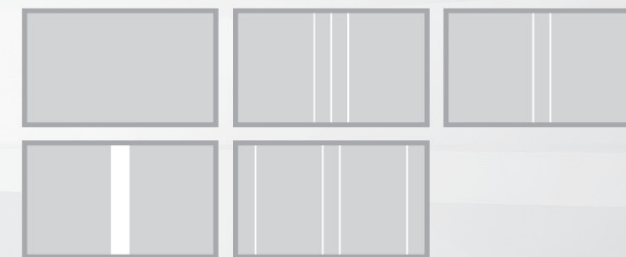

ST060H

全自动高速皮壳机 AUTOMATIC HIGH SPEED HARDCOVER MACHINE

Production Flow

Product Sample

功能特点

- 推板纸装置, 能轻松生产1-5毫米纸板的皮壳, 大大的扩展印企业务范围;
- 凸轮传动系统, 能使整机运行更稳定, 定位更精准;
- 使用多功能一体式吸纸板装置, 省去了更换模具时间, 大大提高工作效率;
- 多功能封面装置不仅能金银卡纸封面、特种纸封面、PU材料封面、布料封面、PP材质封面的皮壳, 而且还能生产多张封面的皮壳;
- 真空转换系统, 能够大大的减少噪音污染, 改善车间工作环境;
- 自动报警系统, 能自动检测生产时的异常情况且停机, 降低报废率, 减少印企成本, 提高产品成品率;
- 软脊纸装置, 能生产圆脊精装等软脊产品, 大大增加印企业务范围, 提高印企利润;

Function

- Board feeder device can produce the hard case with the thickness of 1-5mm grey board, it can greatly enlarge the business scope.
- Cam driving system can make the machine operate more stably and position more precisely.
- Multi-functional board suction can save the time for mould changing and greatly improve working efficiency.
- Multi-functional cover feeding device can produce gold and silver paper, specialty paper, PU, cloth, PP...etc to meet the customer's various requirements.
- Exchange vacuum system can greatly reduce the noise and improve the working environment.
- Automatic alarm system can automatically monitor the unnormal production and then stop, it can reduce the scrap rate and production cost, the improve the rate of finished hardcovers.
- Soft hardcover book with round back etc can greatly enlarge the business scope and improve the profits.
