# OUR FACTORY

---

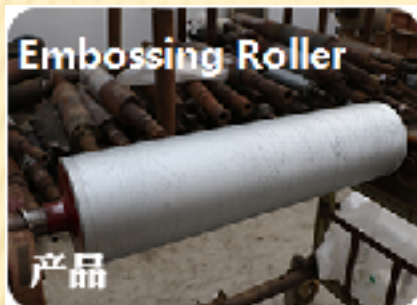

Our factory was founded in 2003, that is a professional embossing roller manufacturer. Our factory located in Kunshan Economic Development Zone, Jiangsu Province, covering an area of 20,000 square meters. The company has introduced the embossing roller processing equipment led by laser engraving. It can produce all kinds of embossing rolls with a length of 3400mm and a diameter of 500mm. The products are widely used in artificial leather, floor leather, decorative sheet, wallpaper, aluminum foil, paper, Glass, cloth and other industries. Our company always adheres to the quality policy of "pursuing and maintaining the absolute superiority of all-round quality", firmly establishes the service tenet of "Credit First, Customer Supreme", and sincerely provides customers with short cycle, high quality and good service products.
