

OXO MULTISKILL

COMBINED CREASING AND FOLDING MACHINE CORDONATRICE PIEGATRICE COMBINATA

OXO MULTISKILL, the compact **creasing and folding machine** with automatic non-stop loading feeder, is the result of a fusion using operating and quality concepts from the hugely successful PIT STOP creasing and perforating machines and BUTTERFLY folding units. The OXO MULTISKILL keeps unchanged the underlying features of robust build quality and reliability which are typical of all Bacciottini Group products.

OXO MULTISKILL, **cordnatrice e piegatrice compatta** con mettifoglio automatico a carica non stop nasce dalla fusione dei concetti operativi e qualitativi delle cordonatrici e perforatrici PIT STOP e del gruppo piega BUTTERFLY. OXO MULTISKILL mantiene inalterate le caratteristiche di robustezza e affidabilità tipiche dei prodotti Bacciottini Group.

TECHNICAL SPECIFICATIONS

Minimum size
in creasing: cm 8x10 | in folding: cm 8x15
Maximum size in creasing and/or in folding cm 50x70 (with optional extension feeder cm 50x100)
minimum and maximum size can change depending on the kind of fold

Sheet weight
in creasing: from 80 to 400 g.s.m.
in folding: from 80 to 400 g.s.m.; from 0,08 mm to 0,4 mm of thickness
variable according to the quality of the paper

Min. distance creasing 0,1 mm between creases | 0,1 mm from front edge | 0,1 mm from tail edge

Production A4
in creasing: 9.000 sheets per hour (with 1 crease.)
in folding: 9.000 sheets per hour (with a single fold)

Maximum number of creases 40
possibility of doing a greater number of creases than those necessary to fold the sheet

Power supply 400 Volt three phase + Neutro 50 Hz
4 Kw or 230 Volt single phase 50 Hz 3 Kw

Dimensions 200 x 95 x h. 132 cm

Net weight 320 Kg

Tipi di piega / Kind of fold

Alcuni tipi di piega sono limitati in base alle dimensioni e allo spessore del foglio. Some types of fold are limited according to the size and to the thickness of the sheet.

PIT STOP 36

SAVE SPACE, KEEPING QUALITY QUALITÀ IN POCO SPAZIO

PIT STOP 36 is the automatic perforating & creasing machine with a working **width of 36 cm**. Designed specifically for **print on demand** and **digital printing**. The standard paper size is 36x65 cm, with an optional extension feeder for sizes up to 36x85 cm.

PIT STOP 36 è la cordonatrice perforatrice automatica con **larghezza 36 cm**, studiata appositamente per il mercato del **print on demand** e della **stampa digitale**. Il formato della carta è 36x65 cm, con l'utilizzo della prolunga (optional) si arriva a 36x85 cm.

TECHNICAL SPECIFICATIONS

Size min/max cm 8x10 / cm 36x65 (with optional extension feeder cm 36x85)
Sheet weight 80 to 400 g.s.m.
Programs 20 programs with 20 operations for each program
Min. distance creasing 0,1 mm
Production 6,000 sheets per hour (A4 with 1 crease)
Power supply 230 Volts 50 Hz single phase
Power requirement 1,5 Kw
Net weight 116 kg
Size 140x65x116 cm

Optionals perforating kit; extension feeder; standard creasing kit

PULSED Perforation

PULSED PERFORATION UNIT GRUPPO PULSED PERFORATION

The PULSED Perforation machine is an independent unit which allows the vertical **continuous or pulsed**, perforation of products. This device can be assembled to run in line to all automatic creasing and perforating machines.

Il gruppo PULSED Perforation unit è un modulo di perforazione longitudinale **continua o interrotta** completamente indipendente che può essere posizionato in linea a tutti i modelli di macchine cordonatrici e perforatrici automatiche.

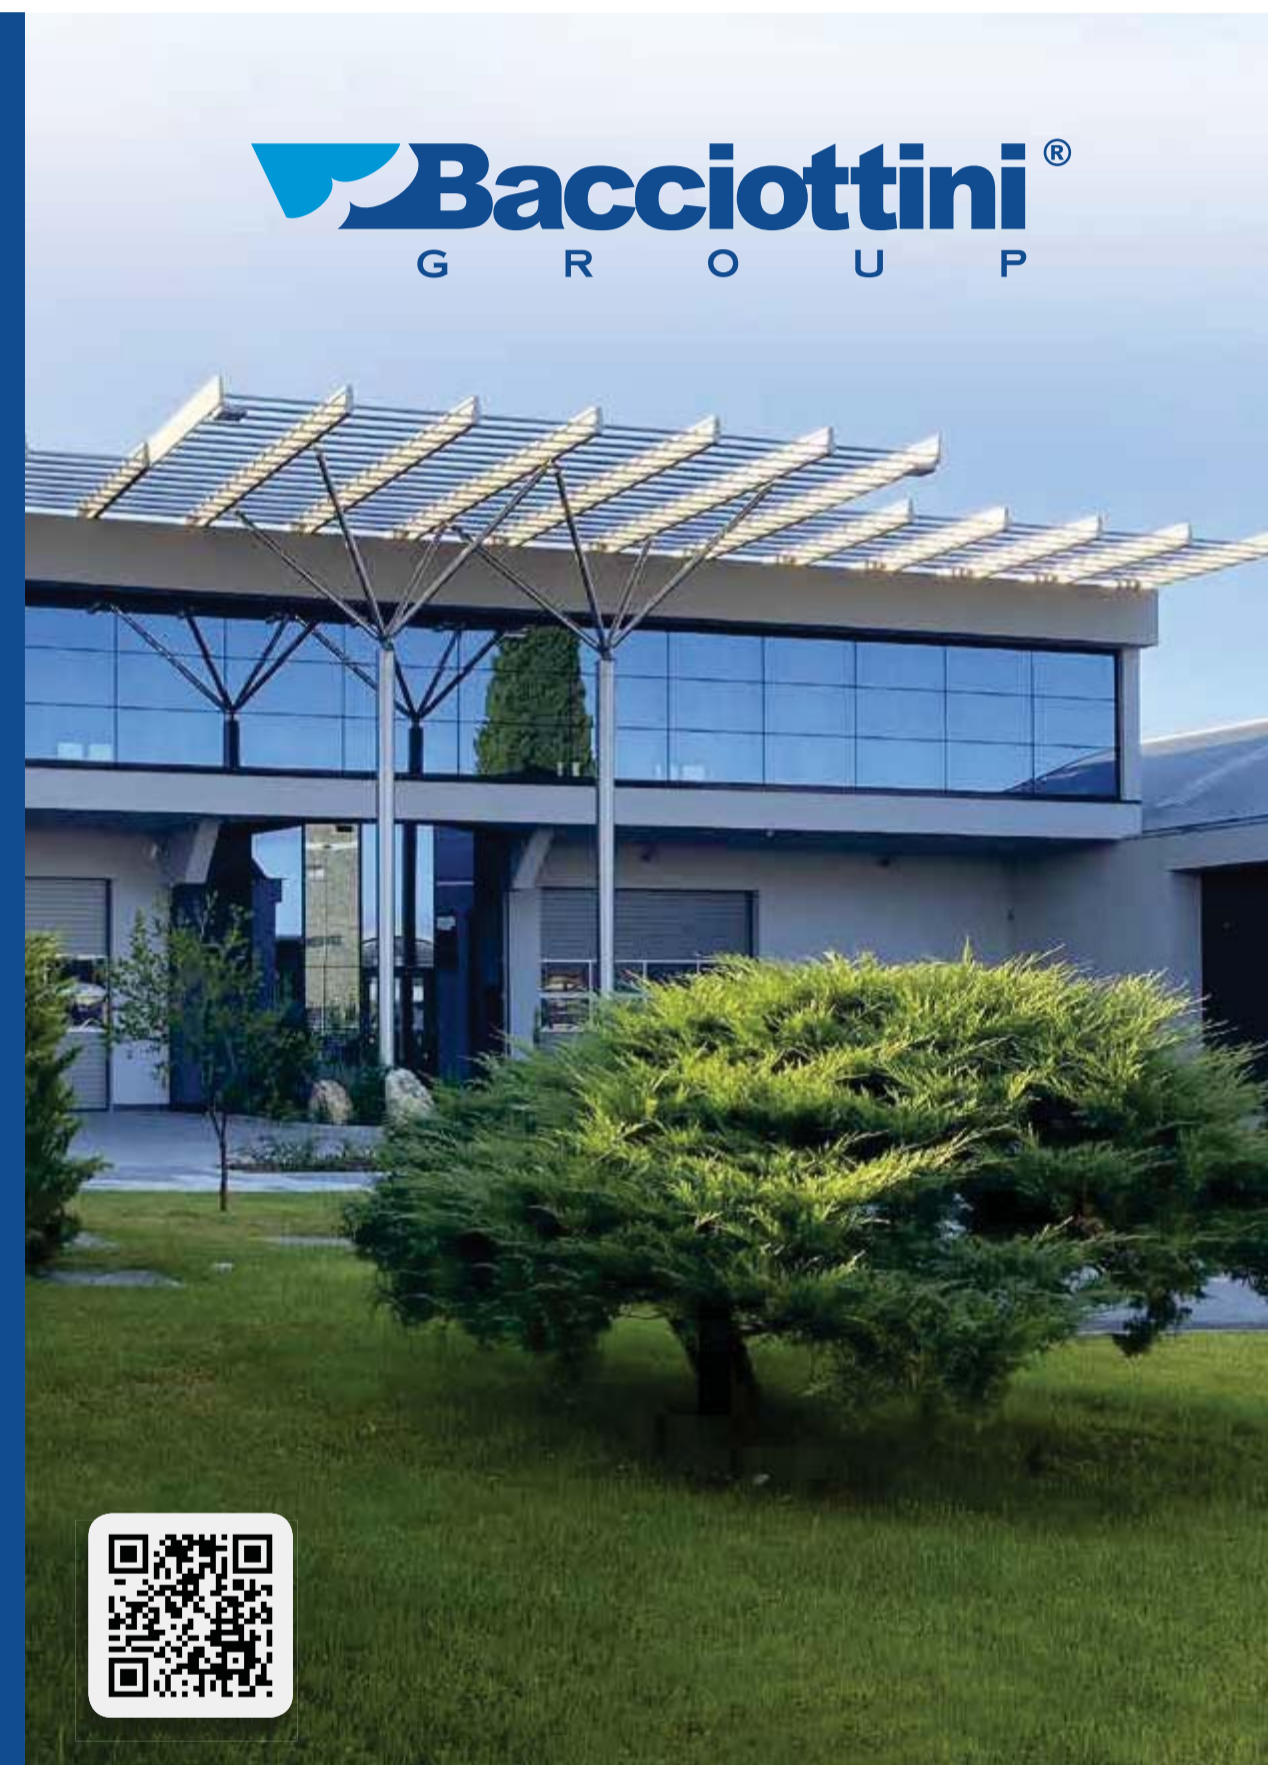

TECHNICAL SPECIFICATIONS

Size min/max cm 10x15 / cm 50x70 (cm 50x85 / cm 50x100)
Sheet weight from 80 to 400 g.s.m.
Programs by touch screen
Power supply 230 Volts 50 Hz single phase
Power requirement 1,5 Kw
Compressed air 6 Bar 40 NL
Net weight 160 Kg
Size 190x85x125 cm
Optionals additional perforation heads

CREASING AND FOLDING MACHINES

BUTTERFLY E2F

DOUBLE FOLD FOLDING UNIT PIEGATRICE DOPPIA PIEGA

The folding unit BUTTERFLY Easy 2 Fold is mounted on wheels for easy positioning behind the creasing and perforating machine. The two parallel folds are performed by special knife units that allow sheets up to 450 g.s.m. to be folded **without distortion** to the sheet even if **folding against the grain**.

BUTTERFLY Easy 2 Fold è il "gruppo piega", montato su ruote piroettanti e frenanti che può essere messo in linea alle macchine cordonatrici perforatrici automatiche a "battuta". Due coltelli effettuano due pieghe parallele e consentono la lavorazione anche di **carte particolarmente rigide** fino a 450 gr/mq o contro fibra.

TECHNICAL SPECIFICATIONS

Size min/max cm 8x15 / cm 50x85

Sheet weight 80 to 450 g.s.m.

Programs 200 programs

Production A4 with 1 fold 11,000 sheets per hour

Power supply 230 Volts 50 Hz single phase

Power requirement 2 Kw

Net weight 226 Kg

Size 198x91x120 cm

easy 2 fold
Butterfly
