

## ST040PP+MP 全自动贴磁铁裱衬机 AUTOMATIC CASE LINING MACHINE +MAGNET PASTING

### Production Flow

### Product Sample

### 功能特点

- 增加自动贴磁铁和金属板铁片装置，大大节省人工成本，提高工作效率。
- 多功能吸皮壳系统，可避免皮壳表面划伤，有助于提高产品质量。
- 可以同时裱两张，最大速度可为80个/分钟，提高日常生产效率。
- 咬口拉规定位系统，使封面更精确，从而提高产品质量。
- 多功能衬纸装置，可根据产品要求粘贴一张纸或两张衬纸，衬纸厚度可为70g-250g，扩大印企业务范围，提高生产力和利润。
- 多功能过胶装置，可控制胶的厚度，提高衬里质量。
- 电刷装置，可以完善精装书的表面。
- 智能控制系统操作方便、简单，能大大提高机器的稳定性。

### Function

- Additional automatic magnet and metal plate pasting device can save the labor cost greatly and improve the working efficiency.
- Multifunctional hardcover suction system can avoid the scratch on the surface of hardcover, thus helping to improve the product quality.
- The max speed can be 80pcs/min by lining 2 pcs of hard case together at one time, thus improving the daily production efficiency.
- Gripper lining device can position more precisely, thus improving the quality.
- Multifunctional paper lining device can paste one paper or two separated paper as per product requirements, and the thickness of lining paper can be 70g-250g, thus enlarging the business scope, increase the productivity and the profits.
- Multifunctional gluing device can control the glue thickness, thus improving the lining quality.
- Brush device can refine the surface of the hardcover.
- Intelligent control system can operate conveniently and easily, so it can improve the machine stability greatly.

## ST040PP+MP

### 机械参数 Machine Parameter

- 外观尺寸 Overall size: 3900x2650x1900(mm)
- 机器重量 Weight: 3100(kg)
- 额定电压 Voltage: 380/220(V)
- 额定功率 Power: 3.2(kw)
- 机器电流 Mechanical current: 10(A)
- 机器频率 Frequency: 50(HZ)
- 速度范围 Speed: 10-40(pcs/min)
- 外观颜色 Machine color: 红色+灰色 red and grey

### 工艺参数 Technology Parameter

- 最大皮壳尺寸 Max case size: 680x360mm
- 最小皮壳尺寸 Min case size: 150x110mm
- 面纸厚度 Paper thickness: 70-250 g/m<sup>2</sup>
- 磁铁规格 Magnet specificatio: φ8-φ20
- 磁铁厚度 Magnet thickness: 4mm
